## Keep Calm and Avoid Coronavirus Scams

- \* Learn how to tell the difference between a real contact tracer and a scammer. Legitimate tracers need health information, not money or personal financial information.
- \* Don't respond to texts, emails or calls about checks from the government. Ignore offers for vaccinations and home test kits. Scammers are selling products to treat or prevent COVID-19 without proof that they work.
- \* Be wary of ads for test kits. Most test kits being advertised have not been approved by the FDA, and aren't necessarily accurate.
- \* Hang up on robocalls. Scammers are using illegal robocalls to pitch everything from low-priced health insurance to work-at-home schemes.
- \* Watch for emails claiming to be from the CDC or WHO. Use sites like coronavirus.gov and usa.gov/coronavirus to get the latest information. And don't click on links from sources you don't know.
- \* Do your homework when it comes to donations. Never donate in cash, by gift card, or by wiring money.
