Remember to Recycle

With Earth Day coming up on April 22nd now is a good time to remind everyone that they need to separate their recyclables from their garbage. The garbage cans in the garbage room are for your recyclable items. The green bin is also available for recyclable items. You do not need to keep paper separate from other recyclables The garbage chute on each floor is for garbage only. Recyclables need to be brought down to the first floor. Let's all do our part. Also contact the nurses or use the medication drop-off box located in the lobby of the police station if you need to dispose of any medications, this includes prescription as well as over the counter.

Over half of Marian Manor was able to receive both doses of the COVID vaccine last month during our vaccination clinic. And many more were able to get vaccinated elsewhere. Below are the new guidelines given out by the CDC pertaining those that are fully vaccinated. At this time all policies in place at Marian Manor remain the same. Masks still need to be worn in the common areas of the building, 1 person per elevator and continue to social distance. Thank you for your understanding.

The Centers for Disease Control and Prevention (CDC) released new health recommendations for people fully vaccinated against COVID-19, saying it is safe for them to gather together without masks indoors and to visit with unvaccinated people in certain circumstances.

The CDC defines people who are fully vaccinated as those who are two weeks past their second dose of the Moderna and Pfizer COVID-19 vaccines or two weeks past a single dose of the Johnson & Johnson vaccine.

The new CDC guidance says fully vaccinated people can:

- Visit other vaccinated people indoors without masks or physical distancing
- Visit indoors with unvaccinated people from a single household without masks or physical distancing, if the unvaccinated people are at low risk for severe disease
- Skip quarantine and testing if exposed to someone who has COVID-19 but are asymptomatic, but should monitor for symptoms for 14 days

However, people who are fully vaccinated still need to take precautions in many scenarios. The guidelines say fully vaccinated people must:

- Wear a mask and keep good physical distance around the unvaccinated who are at increased risk for severe COVID-19, or if the unvaccinated person has a household member who is at higher risk
- Wear masks and physically distance when visiting unvaccinated people who are from multiple households
- Continue basic safety precautions, including wearing a mask and keeping physical distance in public, avoiding crowds and poorly ventilated public spaces, washing hands frequently, and getting tested for COVID-19 if they feel sick

There are now 30 million people in the United States who are fully vaccinated, but the United States still averaged more than 60,000 cases per day over the last seven days, according to Johns Hopkins University. The Biden administration announced last week that the country will have enough vaccines for every adult by the end of May.

If you have information you would like to submit for the Marian Messenger contact Mary Jo at 920-424-1470 Ext. 136 or email at maryjos@ohawcha.org. Please submit any material by the 20th of the month if you would like your information posted in next month's newsletter.

Renters Insurance: Can You Afford Not to Have It?

Many renters overlook the need for renters insurance. In order to protect yourself and your belongings you should consider renters insurance. Renters insurance is available at a relatively low cost to you. Renters often assume the property owner is liable for damages to their private belongings. This is simply not the case. Your landlord's insurance covers damages to the buildings structure, **not your belongings**. That is one of the reasons that renters insurance is beneficial to you.

A second benefit of renters insurance is that it offers you liability protection. Liability protection covers you for costs up to your liability limit if an individual injures themselves in your unit. It will also protect you if your pet causes injury to another individual.

A third benefit is if your unit becomes uninhabitable for any reason specified within your policy, your renter's insurance will cover your living expenses to live elsewhere. This means if you are forced to temporarily move out of the property you rent due to damage caused by a peril covered by your insurance plan, your plan will cover the cost of any increase in living expense so that your household can maintain its normal standard of living. This benefit is usually time limited to 12 months or whatever the insurance company considers a "reasonable length of time". Be sure to check various insurance companies on their policies.

Another factor to consider when looking at renters insurance policies are if the coverage is for actual cash value (ACV) or replacement cost coverage. ACV coverage will pay only for what your property was worth at the time it was damaged or stolen. While replacement cost coverage will pay for what it actually costs to replace the items you lost.

The cost of renters insurance is very affordable but the amount varies with each policy. The cost of your premium depends on a variety of factors: where you live, the amount of your deductible, the insurance company, and if you need any supplementary coverage. (Supplementary coverage is usually used for expensive jewelry or electronic equipment.) Most policies cost between \$90 and \$120 on average per year for \$20,000-\$25,000 worth of coverage of personal items and between \$100,000 to \$300,000 of liability protection. Some insurance companies also offer discounts if you have "protective devices" such as a fire extinguisher or if you have another insurance plan with them such as auto insurance. The best thing to do is to shop around for price quotes from various insurance agencies, to get the coverage you want at the best price.

Exercise your Right to Vote

Tuesday, April 6th is the Wisconsin Spring Election. Photo IDs are required to vote.

If you recently moved you may need to register to vote.

Marian Manor's polling location is:
Oshkosh Public Library , 106 Washington Ave.
7:00 am -8:00 pm

Ward 8

Fire Emergency Instructions

In the event of a fire in your apartment please do the following:

Immediately leave your apartment and close the apartment door.

DO NOT RETURN FOR ANY REASON!!!

Pull the Fire Alarm nearest your apartment. There are several fire alarms located on each floor. (Become familiar with their locations now, during a fire is not the time to be looking for them)

Call the fire department to report the fire when in a safe location to do so. Dial 911.

Notify housing management as soon as possible.

HOW TO EXIT THE BUILDING

When the fire alarm sounds all tenants who are physically able to walk down the stairways must take the following action:

Leave your apartment at the sound of the fire alarm as quickly as possible. Before you open the apartment door, feel your side of the door to see if it is hot to the touch. IF YOUR DOOR IS HOT DO NOT OPEN IT! Remain in your room and follow Special Instructions listed.

If it is safe to open your door, leave your apartment and close the door behind you. DO NOT RETURN FOR ANY REASON!!

Vacate the building by way of the stairways indicated on the emergency exit plans located on each floor. DO NOT USE THE ELEVATOR TO VACATE THE BUILDING as a power failure could cause you to become trapped inside.

SPECIAL INSTRUCTIONS IF YOU MUST REMAIN IN YOUR APARTMENT

If your apartment door is hot and it is unsafe to enter the hall or if you are physically unable to walk down the exit stairways, take the following steps until help comes to you:

Place a wet towel or rug at the bottom of your entrance door to keep smoke from seeping into your apartment.

Go into your bedroom and close the door. Place another wet towel or rug at the bottom of the door to keep smoke from seeping in.

Stay at the bedroom window so that you can be seen from the outside. Wave something white or have a flashlight to signal you need help. Call 911 to give them your location.

If it does become smoky in your apartment, open the bedroom window to obtain fresh air and call for help.

As you leave the building remain calm. Be careful of others and assist one another. Everyone will have plenty of time to leave the building safely. Follow instructions from the fire fighters when they arrive.

Marian Manor is a very fire resistant building. All floors and apartment walls are concrete or concrete block. All apartment doors and stairway doors are fire-rated doors which will contain a fire for at least an hour (if kept closed) Sprinkler system is installed in the hallways and are activated by heat (not smoke). Each floor is equipped with fire extinguishers. If you do not know how to use a fire extinguisher during a fire is not the time to read the instructions and try to learn how. Exit the building.

KEEP CALM & DO NOT PANIC—

Even if you believe the fire was small and you got it all out still call the fire department so they can ensure that it is extinguished entirely.
